

# = BATTLE = ROBOTS

🔥 Give Your Child the Ultimate Summer Experience at RoboThink's Battle Robots Camp! 🔥

This summer at **New School Montessori**, your child will embark on an exciting journey into the world of robotics! At **Battle Robots Camp**, campers will build and customize their own battle robots using gears, motors, axles, and special hardware. It's hands-on learning at its best!

Once their robots are ready, it's time for the ultimate challenge—competing in the arena! Campers will test their robots in thrilling competitions that put their designs, strategies, and teamwork to the test. It's the perfect opportunity for your child to learn valuable STEM skills in a fun, high-energy environment.

No prior experience is necessary—whether your child is new to robotics or already passionate about building, they'll love the experience. This camp fosters creativity, problem-solving, and collaboration, all while having a blast!

## 🌟 Why Choose Battle Robots Camp?

- Hands-on STEM learning
- Confidence-building teamwork and problem-solving
- Exciting robot battles and challenges
- Perfect for kids of all skill levels

Give your child the chance to build, compete, and have a summer they'll never forget! Limited spots available, so don't wait—sign up today!
